|------------------------------|--|
| EDUCATION                    | <b>New York University</b> , M.P.S. in Interactive Telecommunications, 2010<br>Rapid prototyping, creative electronics, and new media studies.<br>Thesis project – a mobile application and website to make everyday habits easy to analyze.   |
|                              | Harvard University, A.B. in Engineering, 2005<br>Studies combined electrical and mechanical engineering with a focus on design and fabrication.  |
| EXPERIENCE                   | <b>Technical Consultant</b> , Prohaska Consulting, 2016 – Present<br>Improved client site performance and monetization campaigns through analysis and implementa-<br>tion of modern ad-tech solutions.   |
|                              | Freelance Software Engineer, Toptal, 2017 – Present  |
|                              | <b>Tech Lead</b> , Hyperstat, 2015 – 2016<br>Designed and built tools to create dynamic embeddable data visualizations.  |
|                              | Senior Software Engineer, Placemeter, 2014 – 2015<br>Developed dashboard and data visualization tools, built and maintained AWS infrastructure for<br>high-perfromance data and streaming systems, employed web analytics, and managed interns.  |
|                              | <b>Chief Technology Officer</b> , Plethora Mobile, 2012 – 2014<br>Led development of high-performance, cloud-based real-time biddi`ng software and front-end<br>campaign management tools, as well as leading partner integrations.  |
|                              | <b>Digital Creatologist</b> , mcgarrybowen LABS, 2011 – 2012<br>Developed projects and prototypes based on unusual uses of new technology.   |
|                              | <b>Project Manager &amp; Instructor</b> , Harvard Square Academy, 2008 – 2008<br>Developed and taught courses in Physics, Math, Critical Reading, and English as a foreign language.   |
|                              | <b>Travel Abroad</b> , 2006 – 2008<br>Explored different cultures and improved foreign language skills through self-directed travel.   |
|                              | <b>Research Assistant</b> , Harvard University, 2005<br>Prepared and conducted experiments related to 3d imaging.  |
|                              | <b>Course Assistant</b> , Harvard University, 2004<br>Taught weekly sections for Math S-152, "The Mathematics of Symmetry."  |
| SOFTWARE<br>&<br>FABRICATION | Familiar with many programming languages and design tools including C, Python, Arduino, HTML5,<br>Javascript, AJAX, CSS3, PHP, Tornado, Django, Redis, Cassandra, MongoDB, MySQL, Java, Processing,<br>Android, Photoshop, Illustrator, InDesign, SolidWorks, Eagle, and MATLAB.                       |
| SKILLS                       | Proficient with laser cutters, waterjets, fused deposition and plaster 3d printers, vinyl cutters, injection presses, CNC milling machines, manual milling machines, metal lathes, vacuum formers, and other shop equipment. Able to design and build microcontroller circuits using multiple methods. |
